ABOUT

Hello,

My name is Lora Milcheva and I am a graphic designer and front-end developer.

I recently completed my education in Digital Marketing and Search Engine Optimization, which gave me fundamental knowledge about modern marketing in the digital world and, also, helped me build a better approach in my work.

As a designer I am keen on creating. That's why I really enjoy writing code and experimenting with vision and functionality.

I appreciate impressive, yet simple and clean design, combining good structure, consistency and usability.

To see some of my work, please, visit my [online CV](#).
